

Hourly, Minimum, & Overtime Wage Rates

Location

Webinar

Date & Time

Start Date: 10/20/2020

Start Time: 9:05 am

End Time: 9:25 am EST

John Ho will be presenting at the FLSA Math: How to Calculate Wage-Related Damages webinar. This lively and challenging CLE program will provide the nuts-and-bolts necessary for attendees to understand the, at times confusing, formulas that apply when calculating wage-related damages under the Fair Labor Standards Act and the New York Labor Law. The panel will discuss specific and complex examples of issues that arise in practice, such as:

- calculating hourly, overtime, and minimum wage rates (salaried, commission, shift pay, blended rates)
- special rules for the calculation of damages for workers in the hospitality/restaurant, domestic and building services industries
- spread-of-hours pay and non-hourly wage rates (salaried and piece-rate employees)
- statutory damages under the Wage Theft Prevention Act
- overtime gap rule
- bonuses
- fluctuating workweek
- interest under state and federal laws
- liquidated damages
- tip credits and tip damages
- spreadsheet tips and calculations
