WHY COZEN O'CONNOR

- Cozen O'Connor has long been known as an entrepreneurial firm, one that attracts lawyers with a competitive zeal and willingness to break new ground. This is useful because the path from point A to point B is rarely a straight line. When faced with challenges or obstacles, our attorneys don't get mired in the details of why a particular approach is unworkable, they simply find another way.
- Cozen O'Connor's Corporate Practice includes leading practitioners in their fields — members of invitation-only professional organizations, leaders in state and local bar association sections, and Chambers and Partners USA-ranked counsel. The practice includes attorneys with experience as executives and board members of corporate and nonprofit organizations and as general and in-house counsel to major companies.
- Cozen O'Connor's Corporate Practice serves a broad range of companies, from family-owned to Fortune 100. We have a particularly impressive track record serving so-called "middle-market" firms, businesses that gross between \$50 million and \$1 billion in annual revenue. The middle market is growing faster, producing more jobs, and attracting more capital than any other segment of the U.S. economy. Middle-market companies require top corporate lawyers who understand their potential, are attuned to their specific needs and challenges, and are willing to make a long-term commitment to their growth.
- A truly outstanding corporate attorney is both a trusted business adviser and an effective dealmaker. As advisers, we seek to understand each client's operations, market position, and long-term goals; counsel our clients as to the legal ramifications of their business opportunities and strategies; and establish direct and candid communication. We don't tell clients what they want to hear — we tell them what they need to know. As dealmakers, we understand that negotiations are not about winning; they are about reaching a mutually beneficial agreement as efficiently as possible. We approach deal counterparts with respect and make sure that even the toughest negotiations remain productive and collegial.
