

The Essentials of Bankruptcy: The Basics You Never Knew (or Forgot During a Strong Economy)

Location

Webinar

Date & Time

Start Date: 06/10/2020

Start Time: 2:00 pm

End Time: 3:00 pm EST

During the economic boom, most were in the position to focus on growth opportunities versus restructuring issues. However, with the recent downturn in the economy having potential impact on organizations whose customers and suppliers file for bankruptcy, it's critical for corporate counsel to understand the most common issues facing companies in bankruptcy and the potential implications they could have on your organization. Webinar participants will gain an understanding of Chapter 11 plans of reorganization, leverage held by various parties-in-interest in the bankruptcy case, the impact of assumption and rejection of executory contracts and leases, filing and litigating proofs of claim, and litigating avoidance actions.
