Thursday, October 31, 2024

Sarah Krissoff, a member of the firm's White Collar Defense & Investigations practice, spoke with NY Spectrum News 1 about the House Coronavirus Pandemic Select Subcommittee's criminal referral of former New York Governor Andrew Cuomo to the U.S. Department of Justice (DOJ) for providing false statements to Congress earlier this year about his role in crafting a state COVID report about nursing home deaths.

"You have to really show that there was this intentional, misleading or omissive comment made by somebody.
